Education

Vanderbilt University *Aug 2023 – May 2027*
Bachelor of Engineering in Electrical and Computer Engineering

- **Coursework (Completed by Summer 2026):** Microelectronic Systems, Microcontrollers, Embedded Systems, Electronics 1, Electromagnetics, Analog Circuits/Systems, Digital Systems (RISC-V), Circuits
- **Cornelius Vanderbilt Scholar:** Awarded scholarship to less than 1% of applicants for merit-based leadership and community achievement.

Vanderbilt University *Aug 2025 – May 2027*
Master of Science in Electrical and Computer Engineering

- **Coursework (Completed by Summer 2026):** Electronics 2, Advanced Digital Electronics, VLSI Design
- **Accelerated Graduate Program in Engineering:** Accepted for reaching senior standing by end of sophomore year (86 credits required, 92 completed) & 3.5+ GPA to earn 2 degrees simultaneously in 4 years.

Technical Projects

4-Bit ALU (Arithmetic Logic Unit) *Jun 2025 - Jul 2025*

- Designed in Verilog with 2-bit opcode for 4 options: Add, Subtract (using two's complement), Logical AND, Logical OR.
- Implemented 2 scalable design methodologies: behavorial (cases) & structural (gate-level hardware).
- Built a testbench in Verilog for hardware validation for either implementation due to proper encapuslation.

Weather Station *Aug 2022 - Present*

- Developed a device using Arduino Uno (with C++ firmware) and a BME280 to detect temperature, humidity, pressure, and approximate altitude with LCD and RGB LED that visually displays temperature through 6 colors.
- Designed 2-layer PCB in Eagle to decrease size & keep electronics compact, utilizing an ESP32 module microcontroller.

Professional Experience

Undergraduate Research Assistant - Electrical Engineering Team *Nashville, TN*
Du Group Vanderbilt *Feb 2025 - Present*

- Performed circuit analysis on pH sensor; contributed to physical design and schematic validation.
- Executed precise SMD soldering techniques on QFN/WLCSP microscopic components for high-reliability assembly (PCBA) on 1 wearable hardware sensor for ECG, EEG, and NIRS health monitoring.
- Debugged and validated low-power wearable PCB using multimeters and firmware flashing, enabling functional biosensor.

Information Services Management (ISM) Intern *Louisville, KY*
UPS (United Parcel Service) *Jun 2024 - Aug 2024*

- Developed/deployed scheduling feature for nationwide employee management system application that is in production today (over 1 year) for 2285 monthly users; selected to present to executive leadership for clarity and technical depth.
- Created real-time asset tracking app in 24-hour hackathon, enabling $33M savings; selected top 9 of 53 teams.

Leadership Experience

Vice President (2025), Secretary (Fall 2024), Electronics Engineer (Stormwater Runoff Device, EPA Rainworks Project) *Nashville, TN*
Sept 2023 - Present
Engineers Without Borders USA - Vanderbilt University Chapter

- Designed 2-layer PCB (EasyEDA) with ESP8266 & sensors to decrease electronic space; debugged circuit and improved layout signal integrity.
- Decreased microcontroller power consumption by 99.9867% (150 mA to 20 μA) using deep sleep mode every 15 seconds.
- Manage internal/external logistics and communicate to members via weekly emails & 8+ Instagram posts.

Lab Proctor and Founding Member *Nashville, TN*
ECE Tech Crew *Feb 2024 - Present*

- Trained 9 students in Keysight tools for debugging circuits in senior design & research (oscilloscopes, multimeters).
- Drove membership from 7 to 30+ members by creating merchandise, flyers, signs, and posters while streamlining communication on Slack and email between students and ECE faculty.
- Chosen to present to the ECE External Advisory Board (10+ faculty) at Vanderbilt on behalf of the organization.

Skills

Hardware Design/Simulation: Verilog, SPICE (LTSpice), Eagle, Altium, Fusion 360, Wolfram Mathematica, Intel Quartus/ModelSim
Embedded Systems: C++ (Arduino), C (STM32), Python (Raspberry Pi), Assembly (RISC-V)
Lab & Tools: Oscilloscope, Multimeter, Waveform Generator, Power Supply, SMD Soldering (QFN/WLCSP), Soldering Iron, PCB Assembly
